Re: Week 1 - NM Legislative Session

Dear IPANM members -

The 2015 Session is off and running. With the historic nomination of Republican Don Tripp as Speaker of the House, the House Leadership has been busy assigning committee chairs, members and offices. House Leadership also reorganized the committee structure to ensure timely consideration of bills. In addition, we welcomed former IPANM President Larry Scott to the ranks of Representative and member of the House Energy Committee. Thank you Larry for agreeing to serve our state.

Below, I have included the names of the new committees and therefore acronyms. In addition, the very important House Energy Committee has new members whom every member of IPANM should get to know. I have included their information below as well. This year I have decided to split out the bills by subject matter rather than by Chamber so the table will look a bit different. As always, if you have any questions, please call me anytime. Thank you.
